

Welcome to Back to the Future Movie Props

Monday, 29 January 2007

Welcome to my collection of original movie props and memorabilia from the Back to the Future Trilogy starring Michael J. Fox, Christopher Lloyd, and Tom Wilson. The highlights of the collection are a Mattel Hover Board (Hoverboard), Gray's Sports Almanac, Tales from Space comic book, You're Fired Fax, Save the Clock Tower Flyer, Griff's Bat and several Hill Valley Telegraph and USA Today newspapers. Each item is authentic, made for the production, unless otherwise noted.

Each prop is introduced with a synopsis from the movie of where and how the prop is used. This is followed by a detailed description with close-up images of the actual prop.
