

## Your're Fired Fax

Saturday, 27 January 2007

After Marty completes a transaction that Needles talks him into, he gets caught by his boss and is fired. He is immediately notified via numerous faxes that appear throughout his house.

This fax can be seen coming out of a fax machine in the foreground. It is printed on a yellow tractor feed paper. This sample contains 5 pages. Presumably, this would be enough to feed through the printer and allow a full page to eject as seen on-screen.
